FORWARD

This dictionary began as a search for an illusive Wright ancestor, "lost" in early New York state. The name of Wright is exceedingly common in early America, and a number of early families by the name of Wright have been traced to Long Island and New York's lower Hudson valley. Only a few of the lineages recorded here have proven European connections. Most of them simply appear in the early records, without proven connections beyond the immediate record. Undoubtedly, most of the early New York Wrights came from the British Isles. However, the name of Wright (also Right, Ryte, Ryt) is also found among the early Dutch records, and name is not uncommon in Germany and other countries.

The name of Wright is also common to New England and New Jersey, and it is likely that some of the early New York Wrights have their American origins there. While beyond the scope of this study, some New England Wright families have been included, if their early migration to Long Island and the Hudson Valley has been shown or is suspected. One published source for many New England Wright families, *Genealogical and Biographical Notes of the Descendants of Sir John Wright of Kelvedon Hall, Essex, England, Thomas Wright of Wethersfield, Conn., and Dea. Samuel Wright of Northampton, Mass.* by Curtis Wright (Cambridge MO, 1915), contains records of Wrights who migrated to New York state and west, but well beyond the period under study, and the source has not been used here. Also not included in

this study are the many Wright families to be found in early New Jersey Quaker records.

The focus of this study has been Wright migrations to and from Westchester and old Dutchess Counties, then further up the Hudson to Albany County, and west. While a number of Wright families have been located in western New York by 1790, only those families with Hudson Valley origins are included here.

I wish to acknowledge here, with deep gratitude, six men and women who, over a course of years, have helped to collect these records in a search for their "lost" New York Wright ancestors. Much of what follows has come to light as a result of their efforts, and they deserve credit for helping to build the file of early New York Wrights.

Jeanne Bender, Evansville, Indiana
Dorothea White, Los Angeles, California
Mary Kales Witherbee, Oneonta, New York
Joseph V. Wright, Haverford, Penna. (dec'd)
Ray Wright, Wheat Ridge, Colorado (dec'd)
Vincent Wright, Maitland, Florida

Douglas Wright Cruger
Portland, October 1987

INTRODUCTION

Each record stands alone. Given (or Christian) names are listed in alphabetical and rough chronological order. Records are numbered for identification; the numbers do not imply generations or relationship to others of the same given name. Following each given name, the father's given name and identifying number is listed, in brackets, followed by known vital records, probate record, and other information that can be attributed to that individual. Each record ends with the sources for that record only, again in brackets.

Wives of Wrights appear twice in the dictionary, first in bold face type in the husband's record and, second, in their place alphabetically, in lower case letters, with an index reference to their husbands.

Children also appear twice in the dictionary, first in their father's records and, second, either in their own record or else (usually in the case of children born after 1800) in their place alphabetically, with their year of birth (when known) and an index reference to their parent.

The records include abbreviated data only, and, for more detail, the reader is urged to check both the source and whatever primary documents may be available. An annotated bibliography of sources (often abbreviated in

the record) is given immediately following the main body of text.

As an additional research tool, an index to probate records filed after 1800 for the counties of Dutchess, Columbia, Greene, Orange, and Albany has been included in an Appendix to the main text. For the most part, material from the probate indexes does not appear in the main body of text.

ABBREVIATIONS

To save print and computer space, abbreviations have been used extensively. States have been abbreviated using the US Postal Code. Other abbreviations commonly used are listed below.

A GENEALOGICAL DICTIONARY OF WRIGHT FAMILIES IN THE LOWER HUDSON VALLEY TO 1800

Compiled By Douglas Wright Cruger

The name of Wright was common in early America, especially in New York, New England, and New Jersey. Most of the early New York Wright families appear to have originated in the British Isles but the surname has also been found in Germany and other European countries, and in Dutch records under such spellings as Ryte and Ryt.

This volume focuses on Wright families migrating to and from Westchester and old Dutchess counties, as well as migrations going further up the Hudson River to Albany County and westward.
